

雙出水外徑車刀架

External Turning Tools with Double Internal Coolant Holes

雙出水孔

Double Internal Coolant Holes Design

加強排除切屑，提升加工速度

延長刀具、設備壽命

Improved the efficiency of chips removal and processing speed.

Extend the lifespan of cutting tools & machines.

連接20BAR 出水機

加大水壓提升切屑效能

Able to install 20BAR high-pressure pumps.

Strong water pressure reached high efficiency on chips removal.

項目 Term	標準水壓 Standard water pressure + 一般刀具 General tool	標準水壓 Standard water pressure + 雙出水刀具 Cutter with double coolant holes	加裝20BAR出水機 20BAR high pressure pump + 雙出水刀具 Cutter with double coolant holes
優點 Features			
刀具壽命 Tool lifespan	★	★★★	★★★★★
加工效率 Processing efficiency	★	★★★	★★★★★

不需要添購新機也能效益提升20%

20% higher efficiency is increased without purchasing new machines.
